- AUDITORIUM NOVUM GUT
  - 450 pax

- MAIN BUILDING’S NORTHERN & SOUTHERN COURTYARD

- CHEMICAL AUDITORIUM
  - 100 pax
Scope & Topics

• Elemental speciation in soil and plant interaction.
• Elemental speciation methods of colloids and nano-particles.
• Speciation of metal(loid)s in oceanography and freshwaters.
• Speciation studies combining several techniques.
• Speciation analysis in biological tissues and body fluids.
• Speciation analysis in farm to fork and in legislation.
• Remediation technologies.
• Gene-environment-metal interactions.
• Control strategies for heavy metal emissions and deposition.
• Nutrient-metal interactions.
• QC / QA, reference materials, spectroscopic standards and chemometric data handling.
• Total element measurements, down to ultra-trace levels in all sample types using element-specific techniques.

For **participants and students** fee includes:
- access to whole scientific programme (sessions, workshops, poster exhibitions)
- conference abstract book and conference proceedings
- lunches and coffee, tea and refreshments in the programme

For **accompanying persons** fee includes:
- lunches and coffee, tea and refreshments
Abstracts

The deadline for submitting abstract **with a submission form as a cover** is **June 30, 2016**. The abstract will be included into the Book of Abstracts only when registration fee has been paid before **June 30, 2016**.

Paper presented during the 15th TraceSpec Conference could be published in **International Journal of Environmental Analytical Chemistry** after the regular procedure of evaluation.
Dates & Deadline

On-line registration opens - 04 January 2016
On-line registration closes - 30 June 2016
